## Token Economics

Total Token Supply	1,000,000,000 LCX
Token Category	LCX is a utility token used within the LCX ecosystem
Token Type	ERC-20
Initial Value at LCX.com	0.10 USD

## Token Allocation

## Utility Token

The LCX Token is created as a utility Token which may be used to pay all fees associated with the services offered by LCX AG. These include subscription fees for LCX Terminal; fees for custodian solutions LCX Vault; fees for exchange transactions for all crypto assets; exchange fees for fiat-crypto-fiat transactions; and other fees within the LCX ecosystem.

## Token Burn

As LCX will be accumulating LCX tokens (LCX) over time, it will implement a transparent and verifiable mechanism to burn LCX in order to reduce the supply of tokens in the ecosystem. LCX will burn 100% of all LCX Token, which LCX receives in the payment process of the utility Token as outlined before. LCX will burn these tokens on a quarterly basis and publish the number of tokens burned. As a result, the supply of LCX will decrease over time as the activity on LCX increases. This is subject to further amendments after 12 month.
